

# Rapid, On-Demand, Secure & Scalable eDiscovery Cloud Services

**GSA IT SCHEDULE 70  
CLOUD SIN 132-40**

Evolver offers eDiscovery Services in the cloud to Federal, State and Local Agencies on the GSA IT Schedule 70 Cloud Special Item Number (SIN) 132-40. Through Evolver's subject matter experts and suite of applications, we cover all aspects of the EDRM including:

- Information Governance
- Processing and Hosting
- Legal Hold
- Production
- Forensics
- Trial Support
- Early Case Assessment

\* XLerator, our custom tool for the review, redaction and production of native Microsoft Excel files is also included.

Currently, there are approximately 40 organizations included on the Cloud SIN, with Evolver as the only eDiscovery service provider.

## Evolver currently supports a variety of eDiscovery tools on Cloud SIN including:

- Nuix
- LexisNexis suite of applications
- kCura's Relativity
- Evolver's XLerator for Excel files
- Venio One

## Three delivery methods on Cloud SIN PRIVATE, HYBRID or PUBLIC CLOUD ENVIRONMENT

Software as a Service  
(SaaS)

Platform as a Service  
(PaaS)

Infrastructure as a Service  
(IaaS)

The Cloud SIN provides centralized, streamlined access to cloud computing services within Schedule 70 and makes it easier for agencies to acquire cloud services.

### Better Value

- Reduce in-house IT budgets and the challenges of IT resource management
- Reduce the cost of eDiscovery by eliminating the purchase of infrastructure and software, and only paying for systems as needed
- Better budget forecasting with more predictable pricing

### Better Results

- Better system and data security
- Unlimited scalability and performance available on demand
