EDISCOVERY MANAGED SERVICES

Secure, scalable solutions to optimize your legal team's performance.

Evolver partners with corporations, law firms, and eDiscovery service providers to help manage and reduce the costs and risks associated with eDiscovery by providing a suite of customized managed services.

Evolver's foundation in infrastructure and cybersecurity provide the optimal environment for data security and eDiscovery.

BETTER RESULTS

- Sophisticated eDiscovery technology engineered by IT and litigation experts for lower risk and better user experience

- Guaranteed system performance with enhanced 24/7 accessibility

- Contractual assurances based on Service Level Agreements

- Better system and data security (ISO 27001, Privacy Shield/GDPR, CMMI Level 3)

BETTER VALUE

- Scalable to fit any size project or budget

- Reduce in-house IT budgets and the challenges of IT resource management

- Reduce cost of eDiscovery by only purchasing the infrastructure, applications, services, and support as needed

- Better budget forecasting with more predictable pricing
